Bootstrap 4 Pagination

‹ Previous   Next ›

Basic Pagination

If you have a web site with lots of pages, you may wish to add some sort of pagination to each page.

Previous | 1 | 2 | 3 | Next

To create a basic pagination, add the `.pagination` class to an `<ul>` element. Then add the `.page-item` to each `<li>` element and a `.page-link` class to each link inside `<li>` :

Example

```
<ul class="pagination">
  <li class="page-item"><a class="page-link" href="#">Previous</a></li>
  <li class="page-item"><a class="page-link" href="#">1</a></li>
  <li class="page-item"><a class="page-link" href="#">2</a></li>
  <li class="page-item"><a class="page-link" href="#">3</a></li>
  <li class="page-item"><a class="page-link" href="#">Next</a></li>
</ul>
```
Try it Yourself »

Active State

The `.active` class is used to "highlight" the current page:

Previous | 1 | 2 | 3 | Next

Example

```
<ul class="pagination">
  <li class="page-item"><a class="page-link" href="#">Previous</a></li>
  <li class="page-item"><a class="page-link" href="#">1</a></li>
  <li class="page-item active"><a class="page-link" href="#">2</a></li>
  <li class="page-item"><a class="page-link" href="#">3</a></li>
  <li class="page-item"><a class="page-link" href="#">Next</a></li>
</ul>
```

Try it Yourself »

Disabled State

The `.disabled` class is used for un-clickable links:

Previous | 1 | 2 | 3 | Next

Example

```
<ul class="pagination">
  <li class="page-item disabled"><a class="page-link" href="#">Previous</a></li>
  <li class="page-item"><a class="page-link" href="#">1</a></li>
  <li class="page-item"><a class="page-link" href="#">2</a></li>
  <li class="page-item"><a class="page-link" href="#">3</a></li>
  <li class="page-item"><a class="page-link" href="#">Next</a></li>
</ul>
```

Try it Yourself »

Pagination Sizing

Pagination blocks can also be sized to a larger or a smaller size:

Previous | 1 | 2 | 3 | Next

Previous | 1 | 2 | 3 | Next

Add class `.pagination-lg` for larger blocks or `.pagination-sm` for smaller blocks:

Example

```
<ul class="pagination pagination-lg">
  <li class="page-item"><a class="page-link" href="#">Previous</a></li>
  <li class="page-item"><a class="page-link" href="#">1</a></li>
  <li class="page-item"><a class="page-link" href="#">2</a></li>
  <li class="page-item"><a class="page-link" href="#">3</a></li>
  <li class="page-item"><a class="page-link" href="#">Next</a></li>
</ul>

<ul class="pagination pagination-sm">
  <li class="page-item"><a class="page-link" href="#">Previous</a></li>
  <li class="page-item"><a class="page-link" href="#">1</a></li>
  <li class="page-item"><a class="page-link" href="#">2</a></li>
  <li class="page-item"><a class="page-link" href="#">3</a></li>
  <li class="page-item"><a class="page-link" href="#">Next</a></li>
</ul>
```

Pagination Alignment

Use utility classes to change the alignment of the pagination:

Previous | 1 | 2 | 3 | Next

Previous | 1 | 2 | 3 | Next

Previous | 1 | 2 | 3 | Next

Example

```html
<!-- Default (left-aligned) -->
<ul class="pagination" style="margin:20px 0">
  <li class="page-item">...</li>
</ul>

<!-- Center-aligned -->
<ul class="pagination justify-content-center" style="margin:20px 0">
  <li class="page-item">...</li>
</ul>

<!-- Right-aligned -->
<ul class="pagination justify-content-end" style="margin:20px 0">
  <li class="page-item">...</li>
</ul>
```

Try it Yourself »

Tip: Read more about Bootstrap 4 Utility/Helper classes in our BS4 Utilities Chapter.

Breadcrumbs

Another form for pagination, is breadcrumbs:

Photos / Summer 2017 / Italy / Rome

The `.breadcrumb` and `.breadcrumb-item` classes indicates the current page's location within a navigational hierarchy:

Example

```html
<ul class="breadcrumb">
  <li class="breadcrumb-item"><a href="#">Photos</a></li>
  <li class="breadcrumb-item"><a href="#">Summer 2017</a></li>
  <li class="breadcrumb-item"><a href="#">Italy</a></li>
  <li class="breadcrumb-item active">Rome</li>
</ul>
```
